

U.S.F.S. Officials,

Good evening. Midas Gold Idaho has been working on the Stibnite project for the past decade. During this time, the company and its employees have earned their social license in the local community. They've volunteered their time in local schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

The project will bring huge economic benefits to the rural communities surrounding the project site. Midas Gold will directly employ 400-500 employees during construction and operations. Payroll is expected to exceed \$34 million. These numbers do not even capture the indirect jobs I am confident nearby towns will see from the Stibnite Gold Project.

I urge you to approve the project as outlined by Midas Gold in Alternative 2, it is the best of the alternatives outlined by the USFS. The Stibnite Gold Project will provide a huge benefit to our community and the local environment. The USFS has taken meaningful measures to ensure the public has had enough time and resources during the public comment period.

Sincerely,

Name: David Szumigala
