

Dear Permitting Officials,

Midas Gold Idaho has been a member of the community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of the community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

Access to public lands is a right extended to all Americans. This is something Midas Gold understands and has prioritized in their Plan of Restoration and Operations. While some of the Stibnite Gold Project will take place on public lands, Midas Gold has made a commitment to the community to ensure access is preserved to peoples favorite places. The company has promised to provide parking for winter recreationalists at their maintenance facility and submitted an additional plan to the U.S. Forest Service to allow Idahoans to continue to use Stibnite Road throughout the life of the project when it is safe. Their willingness to work with recreationalists to provide access gives me great hope for the future.

As the U.S. Forest Service and other state and federal agencies review the proposed plan and determine the course of action, I encourage you to consider and appropriately weigh the positive benefits Midas Gold will have on Idaho. We need to move this project ahead after the 60-day comment period. Alternative Two truly is a win-win opportunity for Americans and the environment.

Warm regards,

Name: Patrizia Di Lonardo
