

Hello,

We have a property outside of Yellow Pine and I have been going to for 37 years. I am very familiar with the area and after considering perspective from a geologist with Midas Gold and environmental issues. I believe the proposed project will do more good than harm to the local area and streams connecting through Stibnite. This is a great way to create jobs for the local community and better the roads and streams. Right or wrong the problem with contaminated streams existed prior to Midas Gold getting involved. The Stibnite Gold Project and clean up will have tremendous impact on improving what was left previously by irresponsible mining companies.

Name: Ryan Smith
