

Greetings,

Midas Gold Idaho has been a member of our community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

Midas Gold Idaho has prioritized public access to Idahos backcountry. In order to ensure safety of the community during construction and operations, Midas Gold Idaho plans to use to Burntlog Road. The company feels Stibnite road is too dangerous to safely transport employees and equipment. Burntlog Road was used by miners many years ago who were headed to Thunder Mountain. This historical route minimizes travel by creeks and rivers that are imperative to fish habitat and takes advantage of existing infrastructure.

Thank you for reviewing my comments. Again, I urge you to permit Midas Golds carefully thought out plan as outlined under alternative two.

Sincerely,

Name: Robert August Holm
