

Dear Ms. Linda Jackson,

I've watched Midas Gold Idaho since they first looked at Stibnite. I live in Big Creek May through Oct (til we make the 87 year old cabin more winter worthy!)

My Uncle and cousin were born in Stibnite and family lived there, it's dear to my heart.

I feel Midas has infused it with hope, I would love to see them clean some things up and bring the mine back to life as well. Everything I've seen the company do in the area thus far makes me comfortable backing them. Especially after the economic chaos Covid caused Idaho -- put some people to work and let the place get cleaned up, and mined with modern methods and reclamation. It will be good for the little valley, and better for the creek. Better than what Bradley Co. left, the war needed the metal and reclamation was forgotten.

Midas has been a good new neighbor in the backcountry, my heart's home since I was little. I wish my Grandma had lived to see how they fixed the road past Lost House Point -- she would flip. (She traveled it by pack string, buggy, Model T, and finally Suburban to Thunder Mountain.)

Please don't delay this project. please permit Alternative 2 of the Stibnite Gold Project as outlined in the draft Environmental Impact Statement. I support Midas's plan and have confidence in a good outcome for Idaho and Valley County.

Respectfully,

Carrie Elizabeth Pitts
