

Linda Jackson,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to adopt the proposed activities outlined in Alternative 2 during the permitting process.

After reviewing the DEIS using the tools provided by the U.S. Forest Service, I believe Alternative 2 is the best option moving forward. It limits the project footprint, keeps traffic away from key waterways, improves water quality and is economically feasible. The project would also provide key economic benefits to the region, such as family-wage jobs and a boost to the local tax base, as well as environmental restoration. Midas Gold currently is the only company with a feasible plan to fix the long-standing legacy issues at the site, such as blocked fish passage and degraded water quality. I feel confident Midas Gold will follow through on its promises to restore the site because of federal and state financial assurance laws. The regulations will require Midas Gold to set aside the necessary funds for restoration and reclamation before any mining begins.

Thank you for the thorough review of the Stibnite Gold Project. I urge you to now move forward and permit the mine using alternative 2, so Midas Gold can put Americans back to work.

Best regards,

Name: Matthew K Conklin
