

Ms. Jackson,

Midas Gold has advance alternative plans for the community and environmental groups in good faith.

I would ask you to consider your fellow citizens approximately 500 needing good paying jobs. As a citizen investing in the United States/Midas Gold, I ask you to consider the importance of good jobs for families. The impact of a good job will go beyond the employee into the community.

We do not know what life could bring any of us at any time but I believe Midas Gold has earned your trust and urge you to move forward with alternative two.

God Bless The United States of America!

Joan Hayward

Name: Joan Hayward
