

Ms. Jackson,

I am writing to share my thoughts on Midas Gold Idaho's Stibnite Gold project. There are many reasons why I am excited for Midas Gold's project to come to life and I hope through my comments you will understand why.

Alternative 2 is the result of many years of study by Midas Gold. The company developed this alternative after submitting their original plans and working with stakeholders, community members and environmental groups to try to determine how it could be improved. The result was a smaller project footprint, reconnecting salmon to their native spawning grounds before mining ever begins and improved water quality. Two of the alternatives, 3 and 4, would delay the project by several years and withhold its benefits from Idahoans unnecessarily. Those same alternatives could also become so expensive it could make the project cost prohibitive. With everything happening in the world, I feel strongly that we need to Stibnite Gold Project to move forward now. It would bring 500 well-paying jobs to rural Idaho, invest a billion in Idaho and help improve community infrastructure.

Idahoans need to see the benefits of the Stibnite Gold Project come to life. The comment period should be kept to 60 days, so the process can continue to move forward. It is with this knowledge that I encourage the U.S. Forest Service to select the modified plan of restoration and operations Midas Gold Idaho presented, known as Alternative 2 in the draft Environmental Impact Statement, and permit the project.

Regards,

Glenn Overstreet
