U.S.F.S.,

I am writing to express my full support of Midas Gold Idaho and the Stibnite Gold Project. Over the past several years Midas Gold has shown its commitment to Valley County and the state of Idaho and I encourage you to permit the proposed activities outlined by Midas Gold in its Alternative 2.

Given the history of the region, I was a bit skeptical when I first heard about this project, but it is clear that Midas is going out of their way to put environmental safety and restoration front and center. For example, according to the DEIS, "it is not anticipated that soils in most of these areas would recover naturally." However, Midas Gold can change the future of the site. The company is already composting and has further plans to help soils recover throughout the life of the project. After looking at the tools provided by the USFS, I feel strongly that Alternative 2 is the best option moving forward. It addresses the purpose and need of the agencies in a manner that provides environmental advantage and economic feasibility over the other analyzed alternatives. With so much promise for the site's future, I hope Alternative 5 is removed from the table. There is finally an opportunity to restore the site and it is an opportunity that shouldn't be passed up.

I urge you to accept Midas Gold's plan as outlined under alternative two. The U.S. Forest Service has provided the public with helpful virtual tools and materials to submit meaningful comments on the project within the allotted timeframe. It is time to move this project forward.

Yours, Bruce Dales
