Dear Payette National Forest Staff,

Midas Gold Idaho has been a member of our community for the past decade. During this time, the company and its employees have become wonderful champions and supporters of our community. They've volunteered their time in our schools and given generously to community causes. The company's track record of following through on its promises and doing the right thing gives us the confidence to write in support of permitting the Stibnite Gold Project.

Midas Gold has carefully researched the Stibnite Gold Project since 2009. Throughout this time, the company has proactively engaged members of our community and consistently sought our feedback. Some of our suggestions are reflected in alternative two including the proposed road to site to keep traffic and potential pollutants away from our waterways. The company selected using Burntlog Road after many discussions with local residents. In my mind, actions speak louder than words and Midas Gold has proven they will be a good partner moving forward.

Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site. We should let them. The Forest Service has given meaningful time to review the document and comment. Further extensions are not necessary and will only hurt Idahoans by delaying the benefits of the project. Please permit Alternative 2 of the Stibnite Gold Project as outlined in the draft Environmental Impact Statement.

Thank You,

Frankie Tyree
