**Subject:** Thoughts on Stibnite Gold Project

DEAR MS JACKSON,

Thank you for the opportunity to comment on the Stibnite Gold Project as part of the U.S. Forest Service's permitting process. This is an important project for Valley County and will have a significant impact on the community. As someone who explores, plays and cares about this region of Idaho's backcountry, I want to make sure the Stibnite Gold Project is done the right way.

Midas Gold has carefully researched the Stibnite Gold Project since 2009. Throughout this time, the company has proactively engaged members of our community and consistently sought our feedback. Some of our suggestions are reflected in alternative two - including the proposed road to site to keep traffic and potential pollutants away from our waterways. The company selected using Burntlog Road after many discussions with local residents. In my mind, actions speak louder than words and Midas Gold has proven they will be a good partner moving forward.

Thank you for the thorough review of the Stibnite Gold Project. I urge you to now move forward and permit the mine using alternative 2, so Midas Gold can put Americans back to work.

I fully support the stibnite gold project.

Thanks for your time,

Tim Rambur
