

U.S.F.S. Officials,

I am proud to submit my comments in support of Midas Gold Idaho's Stibnite Gold Project. This project presents the state of Idaho with an incredible opportunity to bring well-paying jobs to rural Idaho, boost the state's economy and use private investment to clean up a brownfield site.

Midas Gold prioritizes working alongside Idahoans. The company has shown a clear interest in understanding and remedying concerns around the project. They have taken the time to work with the community to develop solutions that work for everyone. For example, the company worked closely with residents of Yellow Pine, recreationalists and snowmobilers to figure out how to preserve access to certain roads in the backcountry. The changes the company made are included in alternative 2. The company didn't need to do this but they did because they knew it was the right thing to do. Through their collaboration with stakeholders at all levels, they have come up with a plan that will not only help Idaho's economy but help restore a legacy site. Their plan has considerable community support.

I found the 60 days allotted and the digital tools provided by the USFS meaningful and sufficient for public review. Midas Gold wants to restore the rivers, wildlife and habitat near the Stibnite Gold Project site. We should let them. Please permit the Stibnite Gold Project and continue to move this important project forward.

Thank You,

Greg Peterson
