RE: Integrated Non-Native Invasive Plant Management Project

Dear Sir:

The Upper Hondo Soil and Water Conservation District (SWCD) supports the draft environmental Impact statement (DEIS) for the Integrated Non-Native Plant Management Project with one comment.

The Upper Hondo SWCD strongly supports Alternative B. An integrated weed management strategy is needed to help in the eradication, containment, control, and suppression of these non-native invasive plants.

Thank you for the opportunity to comment on this project.

Sincerely,

Judy Bock, District Manager
