Gentlemen,

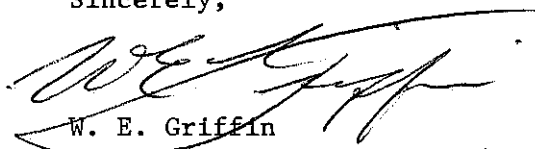

On behalf of The Mount Graham Cabin Owners Association, which includes the 74 cabins located at Turkey Flat Cabin Area, Coronado National Forest, Graham County, Arizona, that we wholeheartedly endorse and support the issuance of the "Bible Camp" lease.

In the spirit of Diversity and multiple use of the mountain, the Bible camp has been an asset to the mountain and over the years has made a tremendous difference in the many lives that have had the opportunity to participate there. I would hope that there could be many more years of service, and many more lives to be touched.

There are some who would want to close the mountain to all public usage, but our mountain is a treasure to be preserved and used by as many as possible. That has been it's history and legacy. I am unaware of any conflict that would adversely affect the mountain by the reissuance of the lease to the Bible Camp.

Thank you for listening to my opinion, and again on behalf of all the cabin owners on the Mountain, Please reissue the lease and let us all continue to enjoy this beautiful treasure.

Sincerely,

W. E. Griffin
President, Mount Graham Cabin Owners
Association
