

Dear Oh Be Joyful,

I love this river because it is a classic section of whitewater in one of the most pristine mountain regions I have ever visited. As far as whitewater goes, it is an iconic stretch that is easily one of the best in the State of Colorado and North America.

I have paddled in over 30 countries, and in my experience this is one of the best sections of whitewater out there.

I believe it goes without question that this section should be eligible to go under the Wild and Scenic Rivers Act.

Thank you!

Rush Sturges

Sincerely,
