

Additional QMS Input...
(Email Letter Sent Previously)

For:
District Ranger Nikki Swanson

And

Joanie Schmidgall, NEPA Planner

From:

Rick Laister

Sweet Home Ranger Station.

11-16-21

The Enclosed Photos Show what is daily happening on Corporate Forest Lands Adjacent to Willamette NF - yes, even those Lands Close to... And Adjacent to The Sweet Home Ranger District.

I have traveled These Roads Since the 1960's... when I was a choker-Seller. Then... The 60's - we were still harvest ALL old-growth Forest!

We have lost so Much in the Last 60 years...

Please guide us through the "QMS" Project so As to Save intact as Much of our beloved Willamette NF as Possible. Help Save our old-growth - Protect bio diversity - And help Restore "our" Forest from the often short-sighted decisions of the Past.

We depend on you for your Leadership, your wise Stewardship, And your Wisdom.

Thank you!

Richard C. Laister
