Alternative 4:

Continued Destruction of the Forest on the Periphery of the Willamette National Forest should give us all the more Reason to Preserve... As Best We can... The Forest Within the Boundaries of that National Forest.

The attached photos - taken in the last 12 months - show Corporate Forest Lands from the area just south of Cool Camp - Then jumping over to the west of Canyon Creek - to the Swamp Mtn. Road Area... Especially upper Little Wiley Creek - Rd.

SM300.

(It is steep slope clear-cutting at it's WORST).

Finally, with global warming - we need to be especially prudent in how we manage our forest - as it will be increasingly difficult to keep them healthy!

Rick Laisler
Salem, OR.

A once beautiful class "N" stream destruction! This is WANTON

Little Wiley Creek - 100 yards upstream from Forest Rd. 2011

The way a stream can... and should be preserved!
