Hello Cathy

I am a carver and am currently working on a 25 ft canoe for the Sitka Historical Park Service. The canoe is made from old growth Spruce.

I would like to know if the first service has any plans on cutting down any old growth Spruce trees in the near future. I do realize that sometimes trees are cut down for safety reasons. I would to be able to be given the opportunity of making something of use trees before they are considered for firewood.

Carving a canoe wouldn't be for me but for the public to use.

Thank you for your time, have a great day.

Tim Flanery
