As project contact request additional information concerning the Ozark Veg Management (OVM) Environmental Assessment (EA) and Plan Amendment Map 2 Unsuitable for Timber and Map 3 Suitable for Timber. See SOPA Forest Service Project 58633.

Review of these two maps provided insufficient detail, at the Section, Township, Range level, to discern USDA FS suitable and unsuitable timber evaluations. Specifically, timber related activities for Newton County, Arkansas T16N and R21W.

The area encompasses the Henry R. Koen Experimental Forest, Buffalo River, and private property.

Request map (PDF format) detailing timber management for location identified above. In the alternative, request on-line link to subject information.

Thank you.

David Brown
