Subject: Shoshone travel management plan
Date: Wednesday, July 27, 2016 2:13:16 PM

Dear Shoshone Forest Supervisor,

I'm writing about the travel management plan for the Shoshone. I'm opposed to adding any new roads or trails for motorized travel, we have enough as is and need to better manage the existing roads and trails. I know I'm not alone based on the overwhelming response against increasing motorized access during the revised Forest planning process. I encourage and support all efforts to protect wildlife, their habitat, and non-motorized recreation in the SNF, particularly in the roadless areas on the Forest.

Sincerely,
Kim Springer
