To whom it may concern,

I would like to say that the Shoshone National Forest Travel Plan has some concerns for those who snowmobile and ride other motor sports vehicles. There are certain parts of the plan that I do agree with and feel like everyone is on the same page, but there are other parts that I think need adjusting to make it fair for all forest users. I am going to attach what the Cody Snowmobile Association has as an alternative proposal because I agree with everything they have stated and think it is a plan that could work for everyone. We as back country riders want the best for the Shoshone National Forest and have nothing but respect for the areas we ride in. Thanks for taking time to read this.
