

I would like to comment on the Shoshone forest travel management plans. I would not like to see any road closures and would like to see new roads and loops opened. I would be in favor of seasonal closures for roads that are wet and driving on them would ruin them. Also seasonal closures in areas of wildlife winter range. I would not be in favor of changing any 50 inch trails to 65 inch and would like to see more 50 inch trails.

Sincerely  
Gary Ticknor
