Subject: Comments on proposed LineCreek/RockCreek ATV trail
Date: Saturday, May 28, 2016 8:30:55 PM

This proposed trail has me so upset that I don't know where to begin. I am a 77 yr old man that has spent his entire life horseback riding and hiking in the mountains. I keep field notes on all the wildlife that I see such as birds, reptiles, mammals etc. When I leave the outdoors I leave it clean and undisturbed. Your proposed area is an elk wintering ground and a spring time calving area. (LineCreek/LittleRock Creek) The world already has enough roads and ATV abuse in our area is rampant. How do you control it and how do you police it? Some of the people in our area actually carry chainsaws on their ATVS to make new places to go. They already cost the counties tax dollars by tearing up the dirt county roads by doing donuts on them. Thanks for letting me give my opinion on such a serious decision. We need to close the illegal trails they have already made instead of giving them new opportunities.
