Subject: against new motorized roads
Date: Thursday, July 14, 2016 11:02:41 AM

Dear Forest: I am against creating new roads in the Shoshone National Forest for motorized travel. Enough climate change and incursions into wildlife territory! I have a cabin in an inholding in the Shoshone National Forest 20 miles West of Dubois, so I am familiar with the noise and fumes made by motorized vehicles. Wildlife has decreased in the area since I bought this placed 22 years ago. Maybe this isn't entirely because of motorized travel and roads but I'm sure other animals don't like it any more than I do. Thanks, Vicki Lindner, [REDACTED]
