[REDACTED]
[REDACTED] 3 years I spent proudly serving our country in the US Army. I love this state and our mountains
[REDACTED]. We have plenty of wilderness area and private property in our neck of the woods. What we don't have enough of today is multiple use lands. Those have been slowly whittled away at since my great grandfather was the first sheriff of Park County. Please stop the assault on our freedoms and motorized vehicle usage! I DO NOT agree with the decision to increase non-motorized use lands! I do not agree with limiting Over the Snow Vehicle use! I love being able to exercise my right to enjoy our mountain winter playground, only a few miles from our family's cabin. This is where we spend nearly every weekend. Each of us put nearly 1,500 miles on our snowmobiles yearly, and have for the last ten years. We consider ourselves blessed to have this opportunity, and we take excellent care of the environment- picking up and packing out trash when we find it. What we NEVER find in this winter area is wildlife of ANY kind besides birds and squirrels.

In this day and age there are a plethora of people advocating for the sanctity of "nature undisturbed". Know that those of us who spend family time every weekend on that mountain consider it a gift. We do not pillage or plunder the beauty. We treasure it! I implore you - NOT AN ACRE MORE OF WILDERNESS!! Allow the multiple use to continue for our family's next 4 generations!!!

Please feel free to contact me with questions or for further information, as I will not be able to attend the public meeting on the 30th of November, but will be happy to meet with you another time.

Respectfully,
Christy Larsen
