Subject: Travel plan input for Shoshone Ntl Forest

In regards to the proposed snow machine travel proposal I strongly disagree with the proposed dates in late nov to April and would agree with a Nov 1 to May1 date schedule with flexibility for early or late season riding. I also strongly disagree with the proposed high/ low elevation proposal. Changing weather during the winter and early fall could warrant great riding up high but maybe just a bit too much snow for safe vehicle travel to the riding area. I would support no elevation related riding schedule.

Thank you all very much,

Gary Elmore Jr
