**Subject:** Shoshone National Forest Winter Travel Management Plan

Dear Acting Supervisor,

I would like to thank you for taking public comment on the Shoshone National Forest Winter Travel Management Plan. In light of how many decisions are made behind closed doors because it is more complex and convoluted when public comment is encouraged, thank you for giving me and my family the opportunity to express how important this decision is. [REDACTED]. [REDACTED]. Snowmobiling is a weekend activity our family has enjoyed for decades. We ride in the Shoshone National Forest at least once a year. When I hear of "talk" and "proposed plans" to take away access to areas we enjoy and cherish, it makes me sad and then angry! For all the people who think no-one cares if access is further limited or restricted, they are dead wrong--me and my family care deeply! Public lands are for the "public" not just for those who don't support mechanized and non-mechanized recreation.

Please consider the comments and data submitted by the Wyoming State Snowmobile Association and their supporters. Specifically, please consider adopting a plan that is consistent with the Medicine Bow-Routt National Forest's travel management rules.

Thank you for your time and consideration.

Best,

Ginny Stradley Meagher, MBA
