Subject: OSV use.

Please do not restrict snowmobile use. How come we never hear about closed areas becoming open for snowmobiling, or "we're easing restrictions for snowmobile use". All we ever hear when it comes to National forest use is more restrictions. Road closures, OSV closures ATV and UTV closures and restrictions. Please leave the snowmobiling use alone, or open more areas up. Snowmobiles have to be one of the least intrusive sports involving vehicles on National forest grounds. Snow melts! You can rarely notice snowmobiles have been riding once summer comes around. And if there is any damage, it is minimal for the amount of use and fun recreation it provides.
Thank You
Jerry Ross
