**Subject:** Shoshone National Forest Winter Travel Management Plan

Dear Sir or Mam

My name is John Johnson and I would like to have on record my thoughts on closing anymore public lands to snowmobiling. I feel you have closed plenty of land already. Our National Forest was originally intended for multiple use land. It looks as though you want to close the public lands to certain groups or no groups of people at all. The snowmobiling population pays taxes just like everyone else we should have equal access to public lands on motorized vehicles the same as any other group of public land users. [REDACTED] have seen a mas amount of public lands shut down to snowmachiners already. This is wrong. As far as Shoshone National Forest I oppose closing any of those lands. I do not sled anymore but my kids enjoy the sport and should have the freedom to ride on the public lands we have open now. Thank you for letting me voice my opinion and I hope you take into consideration all the comments you receive and have not made up your mind already to close the public lands you have suggesting.

Thank You

John Johnson
