Subject: Shoshone national forest management

Dear Forest Service,

My concerns with the snowmobile season involves the following.

- Width restrictions no full sized vehicles with tracks.
- No zone boundaries do NOT split into elevation zones.
- I agree with the WSSA ruling on 'Use Period' zones.
- There should be no snow depth ruling. If a snowmobile is using a dedicated trail that is a road/atv trail in the summer. There should be no penalty for a snowmobile riding on the trail if he rides on a patch of that trail that has no snow. In turn it would be just like the other summer motorized recreational vehicles.

Thank You,
Kelly Weeks
