Subject: Shoshone National Forest Winter Travel Management Plan

I support all measures to shrink acreage for snowmobile use in the Shoshone National Forest. Sadly I have witnessed disregard for current boundaries on the Shoshone and Bridger Teton by snowmobilers. We have seen the growth of mountain bikers and snowmobilers and these user groups will never be satisfied with the vastness of legal snowmobiling acreage.

With the growing population in the Greater Yellowstone Ecosystem, the time is now to put a cap on use and enforce the April 15th closure.

Thank you for considering my comments.

Sincerely,

Kim Springer
