**Subject:** Crandall Snowmobile Trail

Dear Shoshone National Forest Travel Management Team:

I fully support the snowmobile trail in the Crandall area. It would provide access for cabin owners and guests in the Crandall Area. Further, it would reduce the number of vehicles at the junction/parking lot area on Hwy 296. Business would be enhanced as there would be better access to the Painter store for those using the Beartooth trail system. It would be good access to non-motorized use as well as provide access for skiing, snowshoeing and would have very little effect on resources or wildlife. I support this proposal fully.

Thank you,

Jenni Rosencranse
