

To the Shoshone National Forest Travel Management Team,

I would like to comment on the proposed new snowmobile trail in the Crandall area. I think this is a good idea. It would provide good access for the cabin owners and guests in the Crandall area. It would reduce the amount of vehicles at the parking area at the junction of hwy 296. It would provide access to services at the painter store for those using the bear tooth trail system. It would provide access to non-motorized use as well, skiing, and snowshoeing. It has little to no resource or wildlife impacts. Overall it makes sense.

Thank you,

Dustin Rosencranse
