Subject: Shoshone travel plan

My name is Logan jones, and I am writing A comment about the Shoshone travel plans for snow machines. I am against the high low elevation restrictions. First of all, in order to be able to get to the high areas during the beginning and end of the season, you have to use the lower areas. Also if you can't ride in the lower spots, then you also can't ride in the higher spots. It would be most beneficial, and enjoyable for the riders to be able to ride from the first of November to the end of June. I am 16 years old, and I have been riding for all of my life. These people who are just now coming in to try and shut down public land, for "protection" are very annoying, and are just here to take away my fun. I am just starting to get good at riding and it is my favorite thing in the world to do. Please take my opinion and comments into consideration.
