To whom it may concern:

It is difficult to understand how, just the simplest things, turn into something that can't ever be fixed. Responsible snowmobilers, UTVers, and other outdoor enthusiast only want what everyone can enjoy. To be able to enjoy the snow without depth limits or areas that are closed with no option to reach areas that are still open.

I and my husband have been active in our local snowmobile and atv club for over forty years. Followed the rules and worked to make things better for everyone to enjoy. Working together and not against each other for a goal benefits everyone.

Please don't make it so hard that I, as an older woman, can't enjoy the outdoors both over the snow or in the dirt.

Thank you,  
Vivian Shedden
