Please be specific and provide rationale for your position. In other words why do you like for dislike about the proposal.

I don't like this proposal because of the potential impacts on migrating wildlife in this area. This area, due to topography, has a relatively narrow corridor for safe wildlife passage and this proposed road runs right through the middle of it. This area is considered a priority conservation site for the Nature Conservancy and that organization has been working with private landowners here to reduce the threat of subdivision and development.
