1. Which proposal are you commenting on?

NZ15

2. Provide comments below on the proposal:

Please be specific and provide rationale for your position. In other words why do you like for dislike about the proposal.

~~THAT~~ I am concerned about this proposal because although this area may not be considered critical habitat for grizzly bears, there are definitely a lot of them there, not to mention moose, elk & numerous other species. Further, this area has been the subject of a water quality improvement effort going back to 2007 and it would be a shame to allow motorized access on steep slopes that will be prone to erosion, potentially threatening the water quality gains that the LU has made.

Further because there is already limited access to the Forest in this vicinity, Grass Creek is already pretty heavily used at certain times of year. Opening more motorized access will reduce the quality of the wildlife habitat, potentially.
