Please be specific and provide rationale for your position. In other words why do you like for dislike about the proposal.

N204 - I'd like more clarification on this. If this area could eliminate some of the camping that occurs farther west up Sunlight - that would be good. There's a lot of camper use right next to the creek all the way up.

I would also like to see the designated campsites up & across from Gas Creek improved. The "road" to these campsites is washed out & discourages use by campers. I'd like to see more camping in that large campsite rather than along the creek
