2. Provide comments below on the proposal:

Please be specific and provide rationale for your position. In other words what do you see as the merits or concerns about the proposal.

A. This road is critical for the Bear Basin Outfitter. There is a problem with significant damage in Spring + Early Summer in muddy areas. I suggest that you do a 4-7 closure, rather than downgrading to a motorized trail.

B. If you maintain your current proposal, please permit side-by-side width. There is no place along the Bear Basin road where width is a problem.

I agree w/seasonal closures on WR-25
w/ enforcement.

I specifically want to see no more
motorized trails because the abuse
is so high that the use needs to be reduced.
