Subject: COMment on ATV TRails

I have reviewed the ATV proposal and the only one I do not feel should be established is the power line road from the highway to brooks lake. At this time I have seen it be used by atv's even though it is not supposed to be as well as I feel it could encourage other atver's to follow the other power lines that dissect the barbers point area as well. I feel that there is not enough enforcement for this area anyways and my fears would be that this encourages other atv travel around an area that is very nice for hiking and horseback riding. If the Barbers Point Road could be maintained better instead of creating an atv trail down the power line then I feel that resources are going to be better used around this area.

Thanks for the consideration of this comment.

Adam Long
Brooks Lake Lodge
