Subject: Comment on "Travel Management"

Hello Ranger Metzger,

My comment focuses on WR 30 in particular but more importantly on the management of the forest in general. It seems strange to me to worry about what routes are "open" as motorized trails given the small percentage of recreationalists utilizing atvs/otvs that pay any attention to whether or not a road is open or even if there is a road. Before opening or closing roads why don't we focus on enforcing the existing regulations?

Thanks,
Richard
