I believe that the dispersed camping site in question is more than 100 yard from FSR 263 but not as far as MR-23 is displayed on Map 6, so a authorized route would need to be established or opened for it to be used legally. However, I don't know many people who go camping using just their ATV, so this proposal, if it is to actually access this spot for camping, should not be for just a motorized trail.
