It has been a long time since I have been down this road (FSR 285.4A) where it was suppose to terminate in an area locally called Dutch Oven Flats. I thought then that this would be a much better ATV route than a full size vehicle road. However, I don't know how much pioneering of user created routes has occurred at its end. Since this road is not in the Management Area 3.3B and its terminus is at the boundary, I would support leaving this route open, but defining the end on the ground and closing any user created routes that have extended past the original end.
