

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Lisa M. Brehm
Jefferson LA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Jane Broendel
Washington DC US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Jeff Brown
Oklahoma City OK US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Emily Buckler
Houston TX US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
nancy burger
saalem NH US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Claire Bush
Austin TX US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Barbara Cabana
Centereach NY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Robert M. Cabanban

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Nancy A. Camel
Baton Rouge LA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Mary Camele
Loveland OH US

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Pam Caprio
New Hope PA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
PAUL CAPRIOLI
FOREST GROVE OR US

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Cheryl Carney
San Antonio TX US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Catherine Carney-Feldman
Ipswich MA US

Annandale VA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Rosemary Carton
Southport NC US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Olga Castello
Miami FL US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Claudia A. Chaffin
Georgetown TX US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Townsend Cheryl
Crestwood KY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Joe Chwojdak
Cheektowaga NY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Kimi Clark
Beloit OH US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Portland H. H. Coates
Berkeley CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Derek Collett
Nashport OH US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Charles Conner
Ajo AZ US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Jackie Coombes
Rio Rancho NM US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Joyce A. Coombs
Corryton TN US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Pamela Cortelyou
San Diego CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Erlinda Cortez

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Pamela Covington
Highlands Ranch CO US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Bernie Cremin
Collinsville OK US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Gayla Cremin
Collinsville OK US

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Jon Culbertson
San Anselmo CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Kristin Culp
Newtown Square PA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Antoinette Daab
Cape Coral FL US
