

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,

C P

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Rosiris Paniagua
Altadena CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Carmel Parr
Phoenix AZ US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Shannon Patty
Riverside CA US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Debra Pedersen
Caledonia WI US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Holly Perez
Chula Vista CA US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Karen Peterson
Northbrook IL US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Mary Phillips
Tucson AZ US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Christine Pikala
Minneapolis MN US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Pamela Poindexter
Ponca City OK US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Tim Porter
Panama City FL US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Yvette Pratt
South Portland ME US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Debbi Pratt
Seattle WA US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Michelle Profant
Goleta CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Loretta Quarella
Greene NY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Peggy rainy

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Dorrie Rapp
Reno NV US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Sandi Redman
Skokie IL US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Nancy Reinhart
Charleston IL US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Leonardo Reyes jr
Fabens TX US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Gail and John M. Richardson
Bozeman MT US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
PETER RING-REVOTSKIE
San Rafael CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Gretchen Roberts
Avon Lake OH US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Aarahwanna Roe
Macon GA US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Susan Rook
Plainfield IL US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Natalie Rook

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Rhonda Rosser
Decatur GA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Greta Rossi
Washington NJ US
