

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Hilary Danehy  
Fremont CA US

Dear Chief Moore and Director Stone-Manning:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
CARLA DAVIS  
Corte Madera CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,

J Davis

San Francisco CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Brian De Koatz  
Lake Barrington IL US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Grace DeFillipo  
Linden NJ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
LUANNE DEGASTYNE

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Kelley Dempsey  
Frederick MD US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Robert DeMuth  
Ankeny IA US

Portland OR US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Susan Detato  
Brownington VT US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Mary Beth Dickey  
South Bend IN US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Alan Dickie  
Columbia Station OH US

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Karen E. Disidoro  
Gibbsboro NJ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Marybeth Diss  
Brooklyn NY US

Weehawken NJ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Lori Donohue Flory  
Chambersburg PA US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Joel Drembus  
Reston VA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Stacie Dullmeyer  
Keizer OR US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Mary Dumaresq  
Harrisburg PA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Maureen Duthie  
Marietta GA US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Patricia Eaton  
Middleburgh NY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Susan Eikenbary  
Fort Collins CO US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Louise Eiler  
Whittier CA US

Kensington CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Debbie Ellis  
Cotopaxi CO US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,

I. Engle

Village of Tularosa NM US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Patricia Espinosa  
Richmond Hill NY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Yaraly Espinoza  
Oviedo FL US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Susan Evans  
Bellingham WA US

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Bonnie Faith-Smith  
Cambridge MA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Emmanuel Falaras

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
sheila fauth  
MISSOULA MT US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Lorna Ferguson  
East Millinocket ME US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Patrizia Filippi  
Newport RI US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Frederick Fillmore  
TUCSON AZ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Stan Fitzgerald  
Walnut Creek CA US

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Jeanne Flynn  
Medford MA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Rosie Flynn  
Essex Junction VT US

Arlington MA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
WENDY FOSSA  
Essex MA US

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Faith Franck  
Las Vegas NV US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Irene Franck  
New York NY US
