

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Michelle Kosinski
Goleta CA US

Dear Chief Moore and Director Stone-Manning:

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Kathy Kraus
Lodi NJ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Sue Kroona
Ham Lake MN US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Cheri Kunz
Woodinville WA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
MR.LYNNWARD LACY
St Petersburg FL US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Clint Landeen
Canby OR US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Laura LaRocca
Toluca Lake CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Vinnedge Lawrence
West Baldwin ME US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Kathleen Lee
Lacey WA US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Kelli Lent
Alameda CA US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Lynn Levine
Mpls. MN US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Dominic Libby
Milton NH US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
A Linkous
Montgomery TX US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Karen Linn
Delaware OH US

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Jean Loer
Novato CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Cathy Loewenstein
Babylon NY US

Interlaken NY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Matthew Loper
Tiverton RI US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Lorraine Lowry
Vacaville CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
William Lusher
Cedar Rapids IA US

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Dorcas Mac Clintock
Hamden CT US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Barbara Maddalena
Teaneck NJ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Roberta Malanowski
Irving TX US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Michelle Malaspino
Fairhaven MA US

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Marlene Manzer
Buckeye AZ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
paula manzi
West Charleston VT US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
John Marro
Chicago IL US

I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Ana-Paula Martins-Fernandes
North Andover MA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Teri Marty
Columbus NE US

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
sherry matthews
Dittmer MO US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Dominique Matthews
Mount Pleasant SC US

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
Kathy McBride
Lunenburg MA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,
James McBride
Hermitage PA US
