

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Rachel Wells  
Portland OR US

Dear Chief Moore and Director Stone-Manning:

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Jill Wettersten  
Oberlin OH US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Glen Wetzell  
Surprise AZ US

Miami FL US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Dr. Scott Whitener  
Somerset NJ US

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Sue Wilkin  
Kingman AZ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Rose Wilkins  
Saint Petersburg FL US

Dallas TX US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Sabine Williams  
Killeen TX US

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Richard Wilson  
Norwich NY US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Debra Wilson  
Ashland OR US

Los Angeles CA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Robin Wintjen  
Florissant MO US

- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Jennifer Wolffwood  
Sedona AZ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Mara Wolfgang  
Philadelphia PA US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Diane Woodward  
Tulsa OK US

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Mia Wyatt  
Ellicott City MD US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Cathy Wyatt  
Bainbridge Island WA US

Portland ME US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Leslie Yost  
Broomfield CO US

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Andrea Zajac  
Williamston MI US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Elizabeth Zalusky  
Toledo OH US

River Edge NJ US

Dear Chief Moore and Director Stone-Manning:

I strongly support protecting old-growth and mature forests on Bureau of Land Management (BLM) and Forest Service lands. I was excited to learn about President Biden's Executive Order 14072 that calls on your agencies to define, inventory and conserve these forests for at-risk species, climate mitigation, and other benefits for wildlife and people.

I urge the Forest Service and BLM to:

- Adopt a rule that ensures that old-growth and mature forest protections will endure through time.
- Protect old and mature trees from logging.
- Start now by halting old-growth logging projects that are in development.

Thank you for considering these recommendations. Protecting America's old-growth and mature forests is one of the most important actions the Forest Service and BLM can take to combat the extinction and climate crises.

Sincerely,  
Cynthia Zimmermann  
Lynnwood WA US
