

ATTENTION: FOREST SERVICE PERSONNEL

I am strongly opposed to the expansion plan at Holland Lake Lodge. The Forest Service must fulfill its obligation and duty to perform a thorough EIS in order to determine the impacts this expansion will have on wildlife, water quality, and wetlands. As a public stakeholder, not to mention a local land owner who will be directly affected by noise, traffic, and pollution, I would like the Forest Service to also further investigate the Special Use Permit discrepancies and water right issues being brought up at this time. Please don't allow Chris Wohlfeil and POWDR to ruin a Montana treasure!
Thank you.

Sincerely,
Melinda Hill
