

I am writing in favor of the Stibnite Gold project. I am a 4th generation Idahoan and 3rd generation mining engineer. We need more opportunities in our state for local kids to be able to get good wages in the towns they grew up in. I think that the plan as submitted by Perpetua is well planned and will be executed to the high standards we have here in the U.S. As a native Idahoan I would like to voice my support for the Stibnite Gold Project moving forward.
